SERVICES
I'm still working out my skills, but one of the few things that I can do are
WEB DESIGN
One of the skills that I want to work out is web designing. I enjoy lay-out and exploring the elements of web-designing

ANDREA
ABOUT ME
IT Student
I'm Andrea C. Tumbagahon, an IT student but also an HRM student before. I'm currently studying in STI Caloocan City. I enjoyed being in front of the computer and doing crafts like video editing and designing a website. I'm fascinated with gadgets and technology, so I studied this course because this is what I wanted before. But still, travelling is also a goal I want in the future. I also love to learn photography and improve my skills regarding that thing. I also know how to do some bartending and mix some drinks. I'm also a nature lover, a mother and an ambitious woman. I'm also dreaming of becoming a Front-End developer someday.
